Resilience	93
Integrity	88

“The Intrinsic Score is a composite score of all the variables measured on the Intrinsic Profile. It is designed to measure whether a person is highly self-motivated, disciplined and perseverant, able to adjust well to change and bounce back from adversity – all while doing so with high levels of integrity.”

Interested in learning what your score is? Take the Resiliency Assessment and find out!

As business owners and freelancers and startups, we *know* it takes drive, discipline and each one of these components, but have you ever tested yourself to see where you are today?

Let’s connect and assess and figure out what – if any – improvements can be made to help you achieve your goals!
